About the Webinar

This presentation explores the history/origins and work of White Ribbon and introduces best practices to building allyship and accountability among men and boys. We will cover topics such as healthy masculinities; understanding emotions; harmful norms and stereotypes and how they impact well-being and safety; new forms of technology-facilitated misogyny, harms and hatred; pathways towards accountability and allyship; and what men and boys can do within their everyday life to be positive agents of change. Inspiring examples of allyship and transformative culture change from the Canadian and global contexts will be included, with a particular focus on best practices and lessons learned in addressing and preventing sexual and gender-based violence and harassment in communities and workplaces.
